Cixi City Huaxingtai Kitchen Utensils Co., Ltd. is located on the south bank of Hangzhou Bay Cross-Sea Bridge, in Cixi, Zhejiang, where the industry is highly developed. It is in a geographical environment that echoes the metropolises of Shanghai, with good geographical advantages and strong technical support. Our factory was established in 1992 (the original factory name is Cixi Tianyuan Town Huatai Screw Factory). It covers an area of 35 mu and has a factory area of 18,000 square meters. It is a strong wholly-owned enterprise. Our company produces various screws, non-standard parts, and other products in accordance with GB, JIS, ANSI, DIN, ISO and other standards. In 2018, it began to add new businesses such as spring manufacturing and processing, stamping parts products, and rubber parts products, and can meet the European ROHS environmental protection requirements. Our company has strong technical strength, advanced production equipment, and complete testing methods. We have introduced multiple sets of liquid silicone machines, as well as rubber production equipment. After more than 20 years of focusing on manufacturing high-quality fasteners and rubber products, we have accumulated rich experience and technology in the production process, and trained a high-quality team to provide one-stop services for the home appliance, kitchenware, and other industries, including consultation, design, production, and after-sales. The use of rubber parts is very extensive, and rubber parts are required in auto parts, home appliances, and fitness equipment. Our rubber parts are mainly made of silicone and environmental-friendly NBR, and are mainly used in home appliances.
